

# THE GRASSHOPPER FLYING CLUB, INC.

The flying club owns three high wing aircraft. Entering the club buys you a share of the aircraft. The club presently has about 55 members. Flight instructors, A&P and IA mechanics are affiliated with the club.

There are three basic types of memberships.

## STUDENT MEMBER

A student membership is available to those who have no experience or have not held a private pilot's license. The student membership requires a \$1600 equity payment of which \$1500 is refundable upon leaving the club. When a student completes their training and receives a private pilot's license the student must upgrade to full membership status. There is also a monthly charge of \$60 per month to help pay for fixed costs such as tie downs, insurance, annuals etc.

## FULL MEMBERSHIP

A full membership is for pilots holding at least a private pilot's license, current or not. The full membership requires a \$1600 equity payment of which \$1500 is refundable upon leaving the club. Being a full member allows you to enroll family members who live in the same household as associate members with flying privileges. There is also a monthly charge of \$60 per month to help pay for fixed costs such as tie downs, insurance, annuals etc.

## ASSOCIATE MEMBERS

There are no additional fees for associate members living in the same household.

## The Planes.

### N1713V Cessna 172 1974
